

## Log Quality Control and Check Scaler

Lone Rock Timber Management Company is seeking a Log Quality Control and Check Scaler to work in its Marketing Department. This person will be responsible for performing check scales and monitoring log quality on the landing as well as in the log yard. Working area will include Douglas, Coos, Jackson, and Lane Counties. Qualified candidates must be able to effectively communicate with Company personnel and contractors, be able to maintain a working relationship with all Scaling Bureaus, and have an understanding of log grading rules in Regions 5 and 6, Eastside, Westside, and Cubic Scale. Successful applicants must have a minimum of 3 years of professional scaling experience with a credited scaling bureau or co-op. Cover letters and resumes can be mailed or dropped off at Lone Rock's office no later than September 20th.
