

Jefferson Resource Company (JRC) is accepting applications from prospective foresters and crew leaders. JRC, celebrating our 20th year in business, is a full-service consulting firm based in Weed, California.

Forester / Registered Professional Forester (RPF): Ideal applicants will have a four-year degree in Forestry, Wildlife or closely related Natural Resource discipline coupled with three or more years of field experience. Primary duties will include Timber Harvest Plan (THP) preparation, sale layout, timber cruising and timber marking. Applicants must have extensive experience performing these tasks. While a California RPF license is not required, prospective applicants must either possess the experience and education qualifying them to take the RPF examination or be on track to do so within one year. Project and personnel management are preferred. Experience with GPS / GIS technologies, NSO surveying, reforestation, and harvest administration are also preferred but not required. This is a full-time, salaried position with benefits. A high degree of self-motivation and ability to work safely and effectively in steep, rugged terrain are prerequisites of this position. This position will require occasional travel.

Crew Lead: Primary duties will include sale layout, timber marking and timber cruising. Ideal applicants will have three or more years experience performing these primary duties in a production setting. Previous experience managing field crews is preferred. Experience with GPS / GIS technologies, PDRs and NSO surveying are also preferred but not required. All work will be under the supervision of a company RPF. A high degree of self-motivation and ability to work safely and effectively in steep, rugged terrain are prerequisites of this position. Travel will be required. Compensation will be commensurate with experience and qualifications.

Individuals interested in these positions should send a letter of interest and resume to:
