

Minnesota DNR Division of Forestry seeks Resource Assessment Supervisor

The Minnesota Department of Natural Resources – Division of Forestry is seeking qualified applicants for the Resource Assessment Unit Supervisor position based in Grand Rapids, MN.

The Resource Assessment (RA) Unit is a totally self-supporting enterprise unit within the MN DNR that requires a leader with strong business acumen, market awareness, technical knowledge, supervisory and project management experience, and communication/marketing skills.

In this position, the successful candidate will be responsible for planning, implementing, supervising, monitoring and managing the various Resource Assessment (RA) Unit programs, budgets, products and services in meeting the needs of the Division of Forestry and other customers and cooperators. This includes RA's programs for aerial photography, ground inventories, satellite imagery (and other remote sensing), and GIS analysis. This position also administers the Division of Forestry Forest Products Utilization and Marketing (FPU&M) program.
